DID NOT DESIRE SENSATIONAL HEADS

Said Harriman Before Insurance Investigation.

PREVENTS CONTROL BY FACTION

When Move Was On Foot to Give Alexander Control of Equitable by Legislative Action He Prevented Bills Being Introduced.

New York, Dec. 16.—E. H. Harriman before the insurance investigation today said he was instrumental in preventing bills from being introduced in the legislature to aid one faction in the Equitable to get control of the society.

"It has been openely charged," said Mr. Hughes, "that you get your political influence through your relations with Mr. Odell."

"I should say that Mr. Odell gets the political influenec through his relations with me," responded Mr. Harriman.

Mr. Harriman said that when a move was on foot to give the control of the Equitable to James W. Alexander and his friends by means of legislative action at Albany he wired certain persons at Albany to keep him informed as to the progress such proceedings might make.

Asked who these persons at Albany were, Mr. Harriman requested that he be excused from answering. He said he did not want to answer because he did not want to give occasion for sensational newspaper headlines. The committee's counsel, Mr. Hughes, retired for consultation.

Mr. Harriman said he would like to consult counsel before replying. The committee decided, however, that he should answer and he did so, saying that the persons from whom he had requested the information were Governor Higgins and the late Speaker Nixon of the assembly. Mr. Harriman said he learned of the sale of the stock on the day that Mr. Ryan bought it. He telephoned to Mr. Ryan and asked him if he had bought it.

"Ryan said the purchase was conditional," said Mr. Harriman, "and that he wanted to see me and talk with me and that he wanted my help. I criticised his plan and wanted to know what he meant by it. Ten or 15 minutes later I went to Mr. Ryan's office. He told me he had decided to buy the stock and said it was time for him to make a name for himself. He said he had decided to buy Hyde's stock provided he could get his nominee elected chairman of the board. He said he had made a great deal of money and never had done anything to make a name for himself. I questioned his motive. He had told me he wanted my help; that I was the one man in New York whose help he desired."

"What kind of help?" asked Mr. Hughes, counsel for the investigating committee.

"To help him get his nominee elected chairman of the board," replied Mr. Harriman.

Asked on what ground he had criticised Mr. Ryan's plan, Mr. Harriman replied:

"Well, it was rather staggering to anybody that Ryan wanted to control the Equitable or should have control of it."

Will Not Contest Will.

New York, Dec. 16.—Henry Young who has been named as administrator in the will of his brother-in-law, Robert B. Ballantine, who killed himself Saturday at his Newark house, said that the family would not contest the will which left the estate at Charlottesville, Va., to George Mason, the caretaker.

Insist on Protectorate.

San Francisco, Dec. 16.—That Japan will insist on maintaining a protectorate over Korea in spite of any efforts to oust her from that position, is the declaration of Kogoro Takahira, the Japanese minister to the United States, who arrived in San Francisco, leaving on his way to Japan.

RAILS SPREAD; TRAIN WRECKED.

Two Train Hands Badly Hurt in the Accident.

Cincinnati, O., Dec. 16.—A Times-Star special from Evansville, Ind., says: Passenger train No. 125, on the Illinois Central, early today was wrecked by spreading rails near the Indiana Stove Works. The engine jumped the track and plunged through the wall of one of the buildings of the stove works, badly wrecking the building. A Pullman coach, which was hurled in another direction, struck a second building and badly damaged it.

Frank Davis of Richmond, a switchman, had both legs crushed and may die.

Will Bock, the fireman, was badly scalded.

There were 40 passengers on the train, who were considerably shaken up, but no one was seriously hurt.

BILL AIMED AT SOUTH.

Would Cut Representation Because of Disfranchisement.

Washington, Dec. 16.—Representative Bennett of New York has introduced a bill to cut down the representation of southern states in congress because of the disfranchisement of the negro vote. The bill reduces the entire number of representatives from 386 to 351.

The several states would have their delegations reduced as follows:

Alabama from 9 to 5; Arkansas from 7 to 5; Florida from 3 to 2; Georgia from 11 to 6; Louisiana from 7 to 4; Mississippi from 8 to 3; North Carolina from 10 to 7; South Carolina from 7 to 3; Tennessee from 10 to 8; Texas from 10 to 8; Virginia from 10 to 7.

Distributing Arms to Armenians.

Constantinople, Dec. 16.—The Turkish ambassador at St. Petersburg has been instructed to draw Russia's attention to the serious situation at Tiflis, Caucasia, where it is alleged the Russian authorities are distributing arms to the Armenians and inciting them to massacre the Tartars. The Armenians are taking full advantage of the opportunity and have taken Mussulmans' residences, including those of Turkish subjects, slaughtering the women and children as well as the men. The appeals of the Turkish consul to the local authorities at Tiflis were unavailing.

Free Passes Discussed.

New York, Dec. 16.—At a meeting of the executive committee of the Trunk Lines association yesterday the abolition of free passes on the railroads included in the association was discussed. Any decision in the abolishing of passes, it was said, rested finally with the presidents of the several lines. The committee adopted a resolution recommending that all passes be resigned as inducements to secure business be discontinued.

Hoch Will Hang.

Chicago, Dec. 16.—A telephone message was received today by State's Attorney Healey from Assistant State's Attorney Barnett, who is in Springfield, Ills., to the effect that the supreme court of the state has affirmed the verdict of the lower court in the case of Johann Hoch, now under sentence of death for poisoning his wife. Hoch will be hanged Feb. 23.

Rockefeller Will Visit Augusta.

Augusta, Ga., Dec. 16.—Information has been received in Augusta that John D. Rockefeller says he is tired of New York and if things were left to him he would not go back there again, but Mrs. Rockefeller likes the place. Hence he can make his southern visit only for a short time. He says he is coming to Augusta to play golf. He is now in Summerville, S. C.

Wife Dead; Hanged Himself.

St. Louis, Dec. 16.—While relatives were searching the East Side for Antone Wild, a Savannah, Ga., ironworker, that he might attend the funeral of his wife in Millstadt, Ills., Wild's body was hanging from a rafter beneath an East St. Louis warehouse, overhanging the river, where he hanged himself. The body was found at noon. Mrs. Wild's funeral took place at 10 o'clock.

TELEGRAPH STRIKERS STILL HOLDING OUT

Although Their Cause is Apparently Lost.

RANKS ARE BEING DESERTED

Great Preparations Being Made For Election by Liberals, and a Strong Appeal is Made to All to Unite in Restoring Order.

St. Petersburg, Thursday, Dec. 14, Morning, via Eydtkuhnen, East Prussia, Dec. 15.—The emperor's name day, Dec. 19, will be signalized by an important peasant manifesto and the publication of the election.

Dmitri Shipoff, president of the Moscow Zemstvo, the most commanding figure among the moderate Liberals, who, with M. Guchkoff, a prominent member of the Moscow Zemstvo, Alexander Stakovica and others has been consulted in the preparation of the election law, is out with a strong appeal to all who have the welfare of their country at heart, without regard to party affiliation, to unite in the restoration of order and thus insure peaceful elections and the conviction of the national assembly, which is the only legal place in which to settle political differences. He further declares that all classes of the population can join in this imperiative work except those who do not believe in the following doctrines:

First, the development of a constitutional monarchy based on universal suffrage, and second, the reform of Russia by peaceful means through an imperial national assembly. Under the leadership of the Law and Order party, an attempt is making to organize a counter peasant's party in opposition to the Moscow peasants' congress.

Strikers Still Firm.

The post telegraph congress at Moscow is still holding out, insisting that the strikers can be victorious, although unless a new development enters into the situation their cause apparently is lost. The ranks of the strikers are being deserted and those returning to work are compelled to sign a declaration to the effect that they were enticed into the union under false pretenses and agreeing not to meddle with the policies in the future. Nevertheless the strikers can cripple the postal service for an indefinite period and without the striking operators it is impossible for the government to secure a resumption of telegraph communication.

Business Men in Despair.

There are no signs of a break on the Siberian lines and business men everywhere are in despair at the outlook. Runs on savings banks are reported at many places in the provinces. The desperate strikers here continue their attacks on mail wagons and the robbery of letter boxes.

Unable to Collect Taxes.

The provincial zemstvos are complaining that they are unable to collect the taxes without the aid of the federal government, and they have been obliged to close the schools.

Solicitor Ennis Says He Will Vigorously Probe the Matter.

Rome, Ga., Dec. 16.—V. T. Sanford, indicted for the murder of George Wright, in the summer, and who is now in the Atlanta jail, will stand a second trial on the third Monday in January, the first having resulted in a mistrial.

Additional evidence will be introduced, and it is said that the second trial will be more sensational than the first.

Solicitor Ennis states that he will probe the matter to the bottom, and will follow up all evidence that has developed since the first jury was dismissed by the court.

The new jury for the trial of this case will not be drawn until after the holidays.

CHINESE LABORERS SHOULD BE EXCLUDED

Exempt Classes Should be Treated Courteously.

ARE VIEWS OF THE PRESIDENT

He Also Says That the Government Should Do Justice as Well as Exact Justice—Immigration Department Acted Harshly.

San Francisco, Dec. 16.—Responding to communications from the Merchants' Exchange of San Francisco, President Roosevelt has written a letter in which he expresses his views concerning the Chinese boycott of American goods and also the exclusion laws. The president writes that this government might do justice as well as exact justice; that Chinese laborers should be excluded, but that the exempt classes of Chinese should be treated courteously. If the exclusion laws need to be amended American merchants must exercise their influence for amendment, the president says.

The president adds that the immigration department has acted with the utmost harshness toward the Chinese, the fault resting mainly with mistaken public opinion.

In regard to the Chinese boycott of American goods, the president says that everything in his power and that of the state department has been done to stop the boycott.

"Anything further," he continues, "must be done by our own representatives in the senate and house by way of making such changes in the exclusion law as to prevent the injustice and humiliation to which the Chinese who do not belong to the Coolie class have been subjected to in this country."

The Merchants' Exchange held a meeting and gave prompt acquiescence to the president's views by adopting resolutions favoring such amendments to the exclusion laws which would cause them to form what the chief executive deemed right and just.

MAY NOT ACCEPT BUILDING.

Rumored That Athens Federal Structure Must Be Changed.

Athens, Ga., Dec. 16.—There is some talk of the government refusing to accept the federal building in this city from the contractors unless certain changes are made by them.

The trouble seems to be over the terra cotta that is in the building, which the government inspector refuses to accept and which the contractor claims to be up to the specifications.

It is likely that the dispute will go into the regular channels for such controversies, and that it will be some time before the building is in actual use.

Attempted Suicide.

New York, Dec. 16.—A young man giving the name of Felix Frank, 20 years old, and his occupation as that of a banker of the City of Mexico, was taken from a Broadway restaurant today, where he had attempted suicide by shooting. He was taken to the New York hospital, where he is in a critical condition.

Both Put in Jail.

Athens, Ga., Dec. 16.—A negro named Dave Miller came to the police and claimed that he had been robbed of $104 by a negro named Sanders Favors. Favors was arrested and the money was found on him, but he claims that he won it waile gambling. As a result he and Miller were both put in jail.

SCHOOL BOARD HAD SPECIAL MEETING

Convened for the Purpose of Asking Aid From the State.

THREE REPORTS WERE MISSING

The Gainesville, High Springs and Micanopy Schools Failed to Send in Reports, and Were Not Included. Teachers Get Salary December 23.

The Board of Public Instruction held a special meeting Friday for the purpose of making application for State aid, for the support of the Senior and Junior schools of the county.

There was a full board present, comprising Hons. R. B. Weeks, chairman; T. A. Doke and W. J. Martin, and Dr. J. L. Kelley, secretary.

After investigation it was ascertained that the reports of all schools had been turned in with the exception of the University High School, the High Springs High School and the Micanopy High School. Regular printed forms were furnished by the board to the principal of each school, with the request to return the report by this meeting, and Superintendent Kelley declares that these institutions which have not made returns by the 23rd inst., the board will be unable to secure State aid for them.

After the transaction of the business for which the board was convend, an adjournment was taken until Saturday, December 23, when the business will be completed, and the teachers who have their reports in order and on file, will receive their pay for the month, in order thrt they may have the use of their funds for Christmas, if they so desire. RUGS SELLING FAST.

Buying Public Appreciates Big Values by Gainesville Furniture Co.

The second week of the big rug sale of the Gainesville Furniture Co., which was inaugurated last Tuesday, begins tomorrow and those contemplating the purchase of rugs cannot afford to miss the opportunity of buying at ridiculously low prices. In fact, it has been remarked by judges in the rug line how it was possible for the Gainesville Furniture Co. to dispose of the goods at prices asked; but the secret is in the buying, the goods being purchased in large quantities on small margin, hence they are being sold the same way, as regards the profit.

A visit to the store of this enterprising firm will afford practical suggestions that are not mere trinkets, but something substantial and of value, which will bring comfort to the home.

The rug sale will last all week, but it is suggested that prospective purchasers call early, which will give them the advantage of a more diversified lot from which to select.

SCOTT & BOWNE, 409 Pearl Street, New York.

IN COUNTY COURT.

Prominent Citizen of West End Arraigned on Serious Charge.

There was an interesting session of County Judge Mason's court Friday, when T. J. Love of Trenton, one of the most prominent and most widely known citizens of that section, was arraigned upon a charge of failure to exhibit the hide of a slaughtered beef to the inspector of marks and brands for inspection. It is understood that the charge was made by Inspector J. R. Smith of the Trenton district.

The defendant was arraigned and pleaded not guilty. A jury was called and empanelled, the evidence submitted, with the result that the jury returned a verdict of not guilty, after a few moments' consideration.

The jury in this case was as follows: J. H. Vidal, foreman; D. Avera, E. Baird, M. F. McCook, W. W. Avera and C. Y. Crawford.

Justice Colman's Court.

There would have been quite an interesting, as well as probably amusing session, of Justice Colman's court Saturday afternoon, had the original program been carried through, as three local sportsmen of this city would have been arraigned upon a charge of trespass on the property of A. L. Jackson.

From the best information that could be secured, it appears that these sportsmen, who were probably sincere in their action, were a little too ambitious in duck shooting, and accidentally got onto posted property. The result was that they were "hauled" before the court.

When the trial was ready to proceed, Attorney Evans Haile in behalf of the defendants requested a continuance of the case until Wednesday of the coming week, which was granted by the court.

In Mayor's Court.

There was a lively session of the mayor's court Saturday morning, a trio of damsels of the African persuasion and their escort being arraigned upon a charge of disorderly conduct. They were assessed a fine of $5 and costs each, which was paid. John Daniels was the name of the young man who had "the destiny" of the women in charge, and from the evidence it appears that they must have been out for a good time.

Isaac Malphurs, for riding a bicycle without a lantern after night, was discharged on payment of the costs, as Mr. Malphurs apparently did not understand the municipal law.

BODY LAID TO REST.

Funeral of Late Captain J. J. Thompson Was Held Saturday.

The funeral of Captain John James Thompson, the death of whom occurred while he was in attendance at the Confederate Veterans' Reunion, Jacksonville, was held from the First Presbyterian Church, this city, Saturday at 9 o'clock, Rev. Thos. Park Hay officiating. The interment was in Evergreen cemetery, beside his departed father, Wm. N. Thompson, and brother, Locke. The funeral was well attended, many of the older citizens having assembled to pay the last sad respects to the deceased.

With the death of Captain Thompson there passes away one of Alachua county's oldest and most widely known landmarks, and his demise is universally regretted. The floral decorations upon the casket, which were beautiful and profusive, demonstrated the fact that deceased still had many warm friends.

Lewis F. and S. B. Thompson of Lake City, brother and cousin of the deceased, respectively, were present at the funeral, having accompanied the remains from Jacksonville, the other brother, T. G. Pratt Thompson of Fernandina, being unable to attend on account of illness.

Compton of Market, Texas, says of it: "I have used Chamberlain's Cough Remedy in severe cases of croup with my children, and can truthfully say it always gives prompt relief." Humpty Dumpty Saturday Night.

Ernest Cooke, supported by a good company of comedians, presented that musical comedy pantomime, Humpty Dumpty, at the opera house Saturday evening, and notwithstanding the inclemency of the weather, the company was greeted by a fair house.

There is really nothing in Humpty Dumpty but a conglomeration of humorous situations, but they are all good, and were performed last night to perfection.

George H. Adams, the clown, and the star of the company, met all expectations, and was pronounced as good in his profession as any ever seen here.

The Kleinescopic pictures were the best ever presented in the opera house, and the subjects were especially good. In all, the entertainment was all that could be desired, and everyone was well pleased.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won, and cured my diseases by the use of Electric Bitters. I unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Mrs. Charles Ellithorpe, formerly of this city but now of Millington, Mich., in sending her renewal to The Sun, says she now covers everything up there at present, and it keeps a person from the South busy to keep warm. She would rather be in Florida, and no one can blame her.

One of the prettiest and most attractive displays of fruits in the city is that in the windows of E. A. O'Neill, the grocer. WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

It shows that Palatka is up with the line in development.

The tobacco raised in Gadsden county has a reputation that the growers are justly proud of, and it is largely due to the care taken of the crop when growing. If growers of other crops would use as much skill with the manual labor they would also produce good results. Much depends on knowing what to do and having the ambition to do a thing as it ought to be done. The enterprising farmers of Gadsden county make tobacco raising a study and success follows.

FOREST MANAGEMENT.

The field work of the Forest Service in the preparation of working plans for timber tracts belonging to private owners has covered during the year just past a total area of 1,982,000 acres distributed among seven States lying in four forest regions.

One of these working plans was for a tract of 80,000 acres in Logan county, West Virginia. This country is just developing as a coal-mining region, and the lands examined are underlain with coal deposits which are now being worked. The forest is made up of hardwoods from which the more valuable trees have been largely culled. As a result of this the inferior species, such as beech, have increased their numeric proportion in the forest, and now threaten to predominate. Two distinct types of forest are found. The mixed hardwoods type occupies the lower lands and the better soils. Here yellow poplar, white oak, beech, basswood, ash and chestnut are the principal species. On the higher lands and covering the poorer soils is found the chestnut oak type with chestnut oak, chestnut, red and black oaks, and hickory as the chief species. Owing to careless lumbering, repeated ground fires, and, on lower lands, to overgrazing, the forest has greatly deteriorated.

The mining company for which the plan was prepared wishes to manage these lands so as to obtain a continuous supply of timber for its mines. The field work occupied a party of eight men for about three months. From valuation surveys showing the stand per acre of all trees one inch and over in diameter breast high, on various parts of the tract, estimates of the present stand of timber on 16,500 acres were computed. Measurements were taken on yellow poplar, chestnut oak and white oak, and volume tables constructed showing the contents in board feet of these species. A forest map was also made on a scale of 1,000 feet to the inch, with 100-foot contours, and covering an area of 41 square miles.

The study of the tract soon showed that successful forest management called for the solution of the following problems:

1. Protection of the forest from fire.
2. Restriction of grazing to clearings and land not recently lumbered.
3. The obtaining of satisfactory seedling reproduction of the valuable timber trees.
4. The removal from the forest of the inferior species at a profit, which resolves itself into the question of utilization of low-grade timber.
5. Modification of the present logging practices to reduce waste in the felled trees and to leave the forest in improved condition.

To protect the forest from fire a system is to be organized, under which one man will become responsible for all fighting and the logging contractors will be held liable for damages caused by fires started by their men. In restricting grazing one of the most important steps would be the adoption by the county of the West Virginia stock law by which the company could stop free grazing on its lands. Satisfactory seedling reproduction can be obtained by stopping fires, by regulating grazing and by introducing conservative methods of logging. Seeding by the species which it is desired to reproduce will be secured by prescribing diameter limits below which these trees shall not be cut and by cutting all undesirable species to low diameter limits. The removal from the forest of the inferior species at a profit is made possible by utilizing the best trees for lumber by manufacturing all wooden rails and planking for tramroads out of the larger trees, by allowing no other species to be used for cribbing and for bridge timbers on tramroads, and by making all ties, posts, props and cops required in the mines and locally out of such timber.

The recommendations of this working plan are now in force. In November, 1905, two months after the completion of the field work, seed trees of the valuable species were being left by the lumbermen and the logging rules for avoiding waste and leaving the forest in good condition were being carried out. Grazing will undoubtedly soon be regulated and fire protection provided.

CATTLE RAISING.

The man who makes a business of breeding cattle, as well as hogs, is always wise enough, if he is up on his business, to keep up the breeds for purposes intended. If he wants cattle for beef he will not make a specialty of Jerseys, but find the Herefords or other strains of blood that are best known for that purpose.

The cattle industry in Florida is bound to advance, as we have a market that is equal to any in the country, and competition from other cattle raising sections cannot drive our cattle men to the wall. The shipments of beef cattle to Cuba is a business that is growing every year, and with the home demand on the increase, cattle breeders can rest assured of an increasing business from the foreign and home market.

The steady improvement in many of the large herds of cattle to be found in different portions of the State takes much time and money, but there will come a time when the owners of breeding stock will reap their reward.

At Spring Park Stock Farm near this city careful attention is being paid to individuals as well as breeding, a fact that should be appreciated by every farmer who expects to raise only a few cattle, as by this method the quality of stock can only be improved.

Many large tracts of land that are being cleared up will be devoted to farms and cattle ranches, and the high grade Florida raised stock, which has been acclimated, will make cattle raising much easier in the future than in the past, and enable those in the business to secure the best grades for the purposes desired.

The city of Tampa has changed the lease of the Tampa Bay Hotel, so that the company pays $15,000 for the three years' lease and does its own lighting.

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contrated severe colds which speedily developed into the worst kind of la grippe with all it miserable symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." THE MAN WHO DID SHOOTING.

Shot Nine Men in Florida, Two of Whom Have Died.

Savannah, Ga., Dec. 16.—William Walters, a prisoner in the Chatham county jail, was identified as Sam Westcott, alias C. W. Walker, alias Curley, who Saturday night, Nov. 11, shot nine persons at Nassauville, Fla., two of whom have since died.

The identification was made by A. S. Coffin, a brother of one of the men who was shot. Walters denies that he is the man. Goffin was accompanied to Savannah by Sheriff Higginbottom of Fernandina.

On the night in question S. S. Goffin, who runs an oyster factory in Nassauville, paid his men off. They went to a negro frolic, where Walters became engaged in a row with Alex Eubanks. Walters left. He broke into a neighboring house, it is said, and stole a shotgun and cartridges. As the party broke up, Walters appeared, and halting Eubanks, told him to run, as he was going to kill him. As Eubanks turned, Walters shot him.

Then Walters is alleged to have run amuck in the village. Everybody who appeared he shot. Finally S. S. Goffin came up, and Walters shot him. Solomon Snyder, a clerk for Mr. Goffin, went to his help, and Walters shot him twice. One hundred and forty shot lodged all over his body. Nine persons in all were shot.

Walters was arrested here several days ago, as he tried to escape, after burglarizing the place of J. H. Heitman. Tuesday Walters received a 10-year sentence.

Walters is also said to be an escape from serving a 20-year sentence received in the superior court in Macon for manslaughter.

Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eleminate the poisons from the blood. Unless they do this good health is impossible. J. W. McCollum & Co.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

HAUPT YIELDS TO DEATH.

Built Pennsylvania System and Was General Manager of Air Line.

Newark, N. J., Dec. 16.—General Herman Haupt, a veteran of the civil war and a noted railroad man and engineer, and the oldest graduate of West Point, died suddenly on a Pennsylvania railroad train between Jersey City and Newark. He was stricken with heart disease while conversing with his son, Louis M. Haupt, who was formerly a professor at the University of Pennsylvania.

General Herman Haupt was born in Philadelphia in 1817. He practically built the Pennsylvania railroad system. He was chief engineer and contractor of the Hoosaic tunnel and built the tidewater pipe line. During the civil war he had entire charge of all the military railroads of the federal government and was brigadier general. He was also general manager of the Piedmont Air Line and of the Northern Pacific railroad.

The Key That Unlocks the Door to Long Living.

The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much or of some article of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by all druggists.

Editor to Face Charges.

Spartanburg, S. C., Dec. 16.—A sensation was developed in the South Carolina Methodist conference, over which Bishop W. A. Candler of Atlanta is against Rev. C. W. The charges were made by the presiding elder of his district, alleging that he, while editor of the paper in question, was guilty of uttering alse and slanderous statements against the presiding elders and of conduct unbecoming a Christian minister.

I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used. Have recommended it to a number of persons. All express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and $1. Sold by W. M. Johnson.

New York, Dec. 16.—The Cotton Exchange membership of Charles Bryan was sold yesterday to Henry Schaeffer for $23,500, the record price for a seat on this exchange. The last seat sold brought $22,000. A year ago $10,000 was called a high price for a seat on the exchange.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church of Harpersville, N. Y., will interest you. I tried many remedies without relief until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which entirely cured my cough and saved me from consumption." A grand cure for diseased conditions of throat and lungs. At all druggists; price 50c and $1.00, guaranteed. Trial bottles free.

OUR WEEKLY NEW YORK LETTER

Fashionable Coiffures Seen at the Opera—Jeweled Combs a Noticeable Feature—Bat-winged Belt Buckles a Pretty Fancy—Smart Toweling Bath Gowns and French Lounging Robes.

By RENE DEVERAUX.

The opera season so far is a splendid success, and during the week New York fashionables and music lovers generally divided their evenings with Mme. Nordica, Sembrich, Caruso, Bell-Resky, Journet and a host of other members of the various casts. Never has the Metropolitan presented a more brilliant spectacle than at this opera season, the lavish display of jewels and handsome gowns eclipsing anything seen publicly in New York for many years.

The elaborate arrangement of the coiffure which brings into play such beautiful gold and jeweled combs, ornaments and aigrets adds to the general brilliancy of the house. From an orchestra seat the back view is of rows and rows of handsome combs, the unadorned coiffure being the exception rather than the rule this season.

Back combs worn singly are rather higher than were those of last season, the upper portion affording unlimited opportunity for ornamentation. Shell combs set with amethysts are exceedingly fashionable, and amber and topaz are effectively worn in dark tresses. A set of silver combs, rather low and small, was adorned with tiny rhinestone settings which twinkled as stars, and there were many less conspicuous combs of tortoise shell with a quite simple gold beading outlining the top.

A front view of the boxes showed a few diamond tiaras and butterflies

A CHRISTMAS GIFT SUGGESTION—IMPORTED TURKISH TOWELING BATH ROBE.

among the millionaire set, and the ever popular aigret and velvet bow with diamond cabuchon center were again in evidence.

The newest belt buckles are made to curve in at the waist line with slightly pointed ends, a charming design being a pair of jewel studded bat-wings with a corresponding slide for the back of the girdle.

Double slides for holding up the sides of soft ribbon stocks, so much the rage in Paris, are beginning to be seen occasionally, though as yet they are beyond the limit of modest purses.

In a certain exclusive New York shop may be found some delightfully practical bath gowns, whose daintiness, comfort and delicious softness of texture commend them as ideal holiday gifts. One can scarcely fancy a more appropriate fabric for such purposes than imported toweling, and those seen here were as soft as velvet to the touch.

A smart bath gown was of white and buff striped toweling, the stripes being wide and rich looking. Upon each stripe were soft raised figures, resembling brocade. These gowns were fashioned loosely with flowing sleeves and hooded back, the fullness being confined at the waist line by a handsome silk cord and tassel.

An equally charming gown was of pink and white toweling, the washable material enhancing its value.

Eiderdown long gowns and dressing jackets are prettily trimmed with Persian banding, short jackets being finished with silk frog fastenings.

Exquisite French lounging robes of hand embroidered matelasse with soft siberene lining are of extra warmth and remarkably light weight, their collars, in broad sailor shape, being adorned with eyelet embroidered patterns.
